Indesign

Animate

Premiere

HTML & CSS

Javascript

Wordpress

FileZilla

MS Office 365

Social Media

WORK EXPERIENCE

2014 - 2019

LEAD WEB DESIGNER - FLIR & Raymarine

Sole front-end web designer of the Raymarine website across 13 languages. Workload ranges from regular daily updates, to the full design and development of new product pages, blog posts, static and animated web banners as well as online video production and editing.

Part of a 3 person, global team for the parent company, FLIR Systems we maintain FLIR's website across 17 languages. With the head-office in Portland, Oregon I regularly travel to the US for meetings and training with my team.

2011 - 2014

BUSINESS PARTNER - iCraveBeauty

iCraveBeauty is a bedroom business I setup with an old friend. We sourced white-label hair and beauty products from China which we branded and sold online. Trading primarily on Ebay, Amazon and our .com I designed and developed the entire brand from logo design, through to the Ebay shop and listing designs and product packaging. My business partner was a professional merchandiser and specialised in stock management and procurement. I also executed our social media and online marketing campaigns.

2006 - 2019

FREELANCE DIGITAL DESIGNER - PixelsToLife

PixelstoLife is my own freelance web and graphic design business which I run alongside any full time positions I've held throughout the years. I began by providing design services to friends and family members who had their own businesses and then I grew organically from there. I take it upon myself to keep up to date with the latest in design trends and technologies and I implement my new-found knowledge on the next project.
